

Stratford One Residence

With spectacular views of the London Stadium and Queen Elizabeth Olympic Park, Stratford ONE property is set within an iconic location close to the centre of London.

The communal areas here at Stratford ONE are pretty special, inside and out. Inside, the huge common room has pool, ping pong, retro Space Invaders arcade games, table football, and a cinema room. And when it's time to study, you'll find plenty of desk space for that too.

As well as the Olympic park, next door you'll find Westfield shopping centre, home to all the shops and restaurants you could ever need. And when you need to get into the centre of London, the Jubilee or Central Lines will get you there from Stratford station in 15 minutes.
