Everyday English

This course is for you if you need to communicate now. It is a **fast track to communicating** in **everyday situations**, such as booking appointments over the phone, making returns in a shop, describing the haircut you want to a hairdresser or barber, or dealing with problems in your hotel or rented flat. You will **learn and practise common expressions** used in these situations, so you can feel prepared and confident next time you need to solve a problem!

This course is very practical. It will prepare you to communicate confidently in everyday situations. You will learn and practise common expressions used in these situations. You will **improve your understanding** of what other people may say to you, and you will **learn different ways to respond**.

Maximum
16 students

A1 - A2 Level

Minimum
age: 16

1 hour
class

Minimum
of 1 week

Grammar Top-Up

English grammar is hard, isn't it? If you **feel overwhelmed by English tenses, articles, and prepositions, or your small mistakes lead to misunderstandings**, then this course is perfect for you. You will look at the **form, meaning, and use of challenging grammar structures in detail**, increase your **accuracy** and **develop your fluency**.

You will get a **better understanding of challenging grammar structures**, such as conditionals, relative clauses, causatives and many more. You will increase your **accuracy and practise grammar patterns** until you can use them without thinking.

Business English

This course is perfect for you if you want to:

- land a dream job in an international company or get a promotion
- help your company grow into new markets
- understand professional jargon and fit in with an international team

This course will help you to become **more confident in job interviews, appraisals, and internal and external meetings**. You will avoid awkward situations in international communication and find it easier to negotiate the best conditions for you and your company.

You will learn **common business expressions** and **gain confidence** in using them. You will **improve your understanding** of what other people say to you, and **learn different ways to respond**. You will also improve your **overall accuracy and fluency** thanks to your teacher's feedback.
